PROJECTS

E-Commerce Web Application

[GitHub]

Java | Spring Boot | React.js | MySQL | REST APIs

- Developed a full-stack e-commerce application using Spring Boot and React.js with product browsing, user authentication, cart management, and order processing.
- Designed and implemented RESTful APIs for product, user, cart, and order management and integrated the application with MySQL for persistent data storage.
- Integrated Razorpay for online payment processing and implemented the checkout flow following MVC architecture and maintainable coding practices.

Doctor-Patient Portal

[GitHub]

JSP | Servlets | JDBC | Oracle | Bootstrap

- Developed a role-based hospital management application supporting doctor, patient, appointment, and treatment modules.
- Implemented secure authentication, appointment scheduling, CRUD operations, and database integration using JSP, Servlets, JDBC, and Oracle.
- Applied MVC architecture and Bootstrap to build a responsive web application with maintainable database interactions.

TRAINING

Java Full Stack Development Training

Naresh IT, Ameerpet, Hyderabad
